

Bioenergy Balancing 'Vibrational Exam' ***An Annual Physical, only Energetic***

A Bioenergy Balancing 'Vibrational Exam' provides prevention with precision to foster your long term health and well being.

Situations, old content or environmental exposures that might result in future illness or physical dysfunction often show up as an imbalance in the body's biofield or energetic template long before physical symptoms begin to appear. A 'vibrational' examination gives you an opportunity to identify energetic imbalances and then resolve the underlying issues prior to them becoming manifest in the physical body.

In this 90-minute session we'll check your 'vibrational' health in these key areas:

- ✓ Blood sugar
- ✓ Cholesterol
- ✓ Blood pressure
- ✓ Hormone production
- ✓ Heart and circulation health
- ✓ Liver and gall bladder health
- ✓ Colon health
- ✓ Digestion
- ✓ Toxins/Parasites
- ✓ Allergies

Once we've checked the 'vibrational' status of these important areas we will proceed to do whatever clearings are needed to bring the biofield back into balance within the time available.
